

All CSS must be placed in an external style sheet unless otherwise stated.

Place all code in a Part 3 folder in your Labs/Ch9/ directory

- ☐ Build a mock web portfolio using Flexbox. Use multiple Flexbox containers to implement the mockup shown below. **To receive any points, all positioning must include Flexbox.**
 - ☐ A **header** across the top - **10pts**
 - ☐ Layout must match mockup on a wide screen monitor (1200px or larger) - **10pts**
 - ☐ A **navbar** inside the header - **10pts**
 - ☐ Layout must match mockup on a wide screen monitor (1200px or larger) - **10pts**
 - ☐ A **main** area consisting of a 2 columns - **10pts**
 - ☐ The left column takes up **30%** of the width of the screen and the right column takes up the remaining **70%**. - **10pts**
 - ☐ A **footer** at the bottom of the page - **10pts**
 - ☐ Layout must match mockup on a wide screen monitor (1200px or larger) - **10pts**
- ☐ When the View Port reaches a cell phone size (less than 600px), use CSS media queries to achieve the following:
 - a. A single column layout - **10pts**
 - b. The order of the column from top to bottom should be Nav, Header, Headshot, Main Content, Footer - **10pts**
 - c. Make the layout scale responsively between the desktop and mobile versions. Using the breakpoints: 600px, 900px, 1200px, and 2500px.
